3G modems

Mobile broadband modems, USB and PCMCIA Express

Sweden Telecoms serie of mobile USB and PCMCIA modems enables the Mobile carriers to move into new areas such as broadband internet service, VoIP, IPTV, Internet Radio etc. The new generation of mobile broadband products support up to HSDPA 7,2Mbit and are closely integrated with Sweden Telecoms 3G routers.

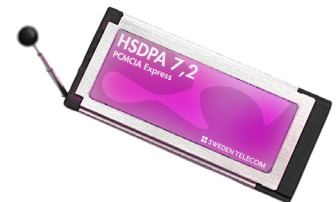

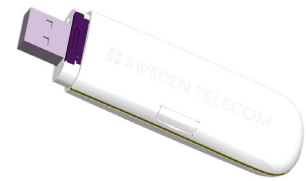

Sweden Telecoms HSDPA modem offers backward compatibility with previous 3.6Mbit and 1.8 Mbit versions, and covers normal mobile frequencies from 900MHz up to 2100MHz.

The USB-version of the modems comes with built in mass-storage mode for plug and play usage with operating systems like Windows XP and Windows Vista. Installation instructions for Linux is also available.

Product overview

- Auto install software (USB mass-storage)
- Up to 7.2 Mbit/s DL and 384 Kbit/s UL
- EDGE, GPRS and GSM data connectivity up to 247 Kbit/s
- Support Windows 2000, XP and Vista, Linux and Mac
- SMS and phone book application
- Built in handsfree for making calls through modem SIM-card
(not HSPA version)

- UMTS Band: 2100MHz or 850MHz/2100MHz or 850MHz/1900MHz
- GSM Band: 850MHz, 900MHz, 1800MHz, 1900MHz
- Internal Antenna
- HSPA DL: Up to 7.2M bps; UL : Up to 384Kbps
- Plug and Play USB 2.0 (full speed)
- Dimensions: 72 mm x 46.18 mm x 14.72 mm. Weight: 44g

Modems

	Technique	Interface	Mass-storage	Handsfree plugg
STC-U720	HSDPA 7,2	USB 2.0	Yes	No
STC-E700	HSDPA 7,2	PCMCIA Express	No	No
STC-U600	UMTS	USB 2.0	Yes	Yes
STC-U500	CDMA EVDO	USB 2.0	Yes	Yes
STC-U400	EDGE	USB 2.0	Yes	Yes
STC-U200	GPRS	USB 2.0	Yes	Yes
